INTRODUCTION

PAMA'S POLICY MANUAL

Board leadership requires that the Board provide vision. To do so, the Board must first have an adequate vision of its own job. That role is best conceived neither as volunteer helper nor as watchdog, but as trustee-owner. Policy Governance is an approach to the job of governing which emphasizes values; vision; empowerment of the Board, Board Councils, Operating Committees, and staff; and the strategic ability to lead leaders.

Observing principles of the Policy Governance Process, the Board of Directors crafts its values into the four types of policies below. Policies written this way enable the Board to focus its wisdom into one central brief document, the Policy Manual.

- **ENDS POLICIES**

The Board defines which human needs are to be met and for whom. Ends describe "what good, for whom, at what relative worth. The *Ends* in Policy Governance refers to the effect an organizations seeks to have on the world outside itself.

- **GOVERNANCE POLICIES**

The Board determines its philosophy, its accountability, and the specifics of its own job. Policy Governance. Within the Governance the Board clarifies how it governs and the manner in which it delegates authority to Board Councils.

- **RELATIONSHIP POLICIES**

The Board clarifies the manner in which it delegates authority to Staff and Operating Committees as well as how it evaluates performance.

- **LIMITATIONS POLICIES**

The Board establishes the boundaries of acceptability within which subordinate group methods and activities can take place. These limiting policies, therefore, apply to Operating Committee, and staff means, (how it gets things done) rather than to *Ends* (what is to be achieved).

MONITORING PRESIDENT PERFORMANCE

R-3

Monitoring President performance is synonymous with monitoring organizational performance against applicable Board policies. Any evaluation of performance, formal or informal, may be derived only from these monitoring data.

1. The purpose of monitoring is simply to determine the degree to which Board policies are being fulfilled. Information which does not do this will not be considered to be monitoring. Monitoring will be as automatic as possible, using a minimum of Board time so that meetings can be used to create the future rather than to review the past.
2. A given policy may be monitored in one or more of three ways:
 - 2.1. Performer's report: Disclosure of compliance information to the Board from the President.
 - 2.2. External report: Discovery of compliance information by a disinterested, external auditor, inspector, or judge who is selected by and reports directly to the Board. Such reports must assess performance only against policies of the Board, not those of the external party unless the Board has previously indicated that party's opinion to be the standard.
 - 2.3. Direct Board inspection: Discovery of compliance information by a Board member, a Council, or the Board as a whole. This is a Board inspection of documents, activities, or circumstances directed by the Board which allows a "prudent person" test of policy compliance.
3. An annual formal evaluation will be a summative examination of the year's regular monitoring data already received, which will be performed by the Compensation Council.
4. The President's performance metrics will be agreed upon by the Board of Directors, through the Compensation Committee, with input from the President.
